DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, in the first line, change "the number of wafers" to --the number of wafers in a lot--.

Allowable Subject Matter

2. Claims 1-2 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant's claimed method "for adjusting ***the*** number of wafers," (i.e. "***the*** number of wafers in a lot" that are part of a lot to be subjected to a process *after* "a lot that *has completed* the plurality of processes"), can be distinguished from prior art by the "determining an *excluding wafer* based on yield of a lot that has completed the plurality of processes" [e.g. claim 1].

Conventionally, the number of wafers in a lot is set to meet customer demand in advance, in view of an expected yield. The prior art does not take into account "excluding an excluding wafer from a given lot" when there is an improving yield, for example, such that the number of wafers in a lot can be reduced based on an improving yield evident from a wafer lot that "has completed the plurality of processes" [see Fig. 8].

When an excluding wafer is excluded from a given lot based on yield of a completed lot, the excluded wafer can advantageously be a wafer "that has processing results largely deviated from a target value of the processing results of the upstream process" [e.g. claim 2].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The reference to Yamada et al. (US 2004/0167656 A1) is made of record because of paragraph [0315] at p. 14, yet this reference does not qualify as "prior art" in view of applicant's effective filing date.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on 571-272-1915. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
